

# ZEYNEP ÇAVUŞOĞLU

Computer Engineer

## SUMMARY

I have received comprehensive education in Computer Engineering at Eastern Mediterranean University. Throughout my academic journey, I have focused on software and application development, enhancing my skills through various courses and projects. My aim is to leverage this foundation to contribute to innovative solutions in these fields.

## EDUCATION

**Bornova Anatolian High School** 2013 – 2017

**Eastern Mediterranean University** 2019 – 2025

*Bachelor of Computer Engineering*

## EXPERIENCE

### Intern – Sca Social

*August 2024 – September 2024*

- Completed training in Management, Marketing, Project Management, and Digital Transformation.
- Designed and implemented a project to enhance the company's brand identity and corporate image, increasing brand engagement by 15%.
- Organized a team of 5 to conduct a market analysis, identifying key areas for brand improvement, resulting in a 10% increase in client satisfaction.
- Demonstrated creativity, strong communication skills, and proactive problem-solving abilities.

### Intern – Izmir Ministry of Environment, Urbanization, and Climate Change Provincial Directorate

*July 2023 – August 2023 | Izmir, Turkey*

- Developed and implemented archive automation systems, improving efficiency by 30%.
- Managed the integration of cafeteria systems, streamlining operations and reducing manual errors by 25%.
- Synchronized internal portals to enhance communication and data flow within the organization, reducing data retrieval time by 20%.
- Collaborated with cross-departmental teams to ensure seamless implementation of new systems.

## SKILLS

### Programming Languages:

C, C#, C++, Java, Python, PHP, Visual Basic, Go

### Web Development:

.NET, HTML, CSS, JavaScript, TypeScript, Node.js, React Native, Next.js, Tailwind CSS

### Database Management:

SQL, Oracle, MongoDB, Microsoft SQL, SQLite, PostgreSQL

### Software Tools:

Photoshop, MATLAB, VHDL, Microsoft Office, Figma, Canva, Unity, Visual Studio Code,

### Database Architecture:

Relational Design, ER Modeling, Query Optimization

### Project Management:

Agile, Risk Management

### Operating Systems:

Windows, Linux, Ubuntu

### Cloud Computing:

AWS, Azure, Google Cloud, Firebase

### Version Control Systems:

Git, GitHub

### Mobile App Development:

React Native

### Cybersecurity:

Network Security, Firewalls, Encryption

## LANGUAGES

TURKISH (Native)

ENGLISH (Advanced)

GERMAN (Beginner)

## CERTIFICATION

### McKinsey Forward Program Certificate

Issued: December 2024

Developed leadership, structured thinking, and problem-solving skills for dynamic work environments.

### Basic Project Management Training Certificate

Issued: September 2024

Mastered fundamental project management principles and tools for effective execution.

### React Native Mobile Application Development Certificate

Issued: November 2024

Gained expertise in building high-performance iOS and Android apps using React Native.

### Unity Game Development Certificate

Issued: November 2024

Learned to create interactive 2D/3D games using Unity, covering physics, lighting, and controls.

### Basic Node.js Training Certificate

Issued: November 2024

Acquired foundational backend skills in Node.js, including API development and database integration.

### AI Sprint Bootcamp Certificate

Issued: January 2025

Gained knowledge in Machine Learning, Deep Learning, Natural Language Processing, Reinforcement Learning, and MLOps.
